

Chuck Georgo is a public safety strategist and technologist supporting federal, state, municipal, and private sector organizations with responsibilities for homeland and community security. Since 2000, Chuck has been at the forefront in developing and implementing Law Enforcement Information Sharing and Intelligence Fusion systems around the nation. He was instrumental in development and deployment of the Federal Bureau of Investigation Joint Terrorism Task Force (JTTF) Information Sharing Initiative, Naval Criminal Investigative Service (NCIS) Law Enforcement Information Exchange (LInX), and authored business process and architecture requirements for the Illinois State Police (ISP) Statewide Terrorism and Intelligence Center (STIC); he currently serves as the subject-matter-expert and project manager for Microsoft's Fusion Core Solution program.

He serves as First Vice President of the InfraGard Maryland Members Alliance (IMMA), Chairman of the Security and Privacy Committee for the Integrated Justice Information Systems (IJIS) Institute, and is an active voice on the International Association of Chiefs of Police Criminal Justice Information Systems (CJIS) Committee and Law Enforcement Information Management (LEIM) Section. Chuck holds an M.S. in Information Architecture, a second M.S. in Public Administration, and a Post-Graduate Certificate in eCommerce Management.
